## LES FEMMES DE JEAN-PAUL FOUR

*Jean-Paul Four is the luxuriant and sophisticated puppet player of these erotic ladies, baby dolls, queens of voluptuous sex in the garden of pain. Dreamers they are, fleeting martyrs, princesses of love, subservient and obliging odalisques. He fashions them, conspires them, immortalizes them with his gaze. A Man in love with Woman, tender despot, manipulator of gentle tyranny. To these women he reveals the eternal nature of each of them. The dramaturgy of Monsieur Four turns his women into indecent and tyrannous mistresses, provocative lovers, devilish Messalinas, submissive captives, insurgents of the flesh, libidinous, intimate and joyous.*
